### STORE NOTES

At the recent Ad-Convention in Baltimore, Mr. Arthur H. Pleasant, a well-known advertising man of that city, addressing the Convention, stated that "To increase business is easy—all too easy. But to increase business healthily along lines that are sound is different—and not by any means easy!"

Our business has NOT been increased in the "easy" way. It has been built up gradually on the SERVICE idea—which is not the easiest, but IS THE BEST way to build up a lasting business. Nothing worth while is "easy"—and it is not easy to establish a business!

Our store was only recently enlarged, and is now one of the handiest of its kind in the state, which only goes to show that when we built our business, we founded it on the rocks of straight-dealing instead of the sands of "easy-to-do!"
